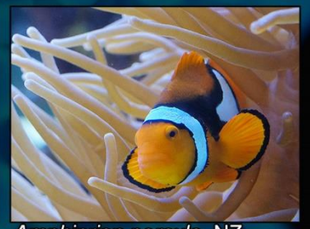
# Fischnachzuchten

futterfest & vital, von engagierten Züchtern

*Amphiprion ocellaris* NZ



*Amphiprion percula* NZ

*Pseudochromis fridmani* NZ

*Pseudochromis aldabraensis* NZ

*Assessor flavissimus* NZ

*Pterapogon kauderni* NZ

*Elacatinus spp.* NZ

*Meiacanthus spp.* NZ

# Weich- und Hornkorallen

*Capnella Tubipora Sinularia ...*

*Isis Plexaurella Briareum*

# Krustenanemonen und Anemonen

*Zoanthus Palythoa Terrazoanthus*

*Entacmaea sp. Phymanthus sp.*

# Schnecken & aquariengewachsenes Riffgestein

*Turbo Euplica Monetaria*

*Lebendgestein*

# Algen und Mangroven

*Gracilaria sp.*

*Chaetomorpha Cladophora*

*Caulerpa spp.*

*Rhizophora mangle*

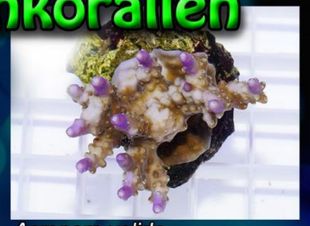
gewachsen unter 100% Erneuerbaren Energien !

# SPS Steinkorallen

Acropora sp. `marineblau´



Acropora valida

Montipora spp.`digitat, rot / stahlblau´

Montipora spp. `digitat, grün´

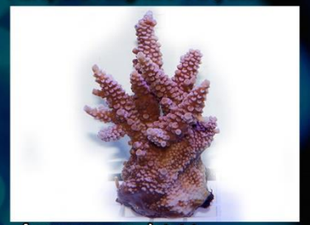
Acropora echinata `türkis´ `blau´

Acropora vaughani A.hyacinthus

Montipora spp.`folios, lila / rot´

Montipora spp.`folios, beige / gelb´

Acropora tumida A. muricata



Acropora sp. `pink´

Montipora danae M. capitata

Montipora samarensis M. confusa

Seriatopora spp.

Pocillopora spp.

Montipora spp. `green polyps / violett / orange / rainbow / grün ...

Stylophora pistillata S.subseriata

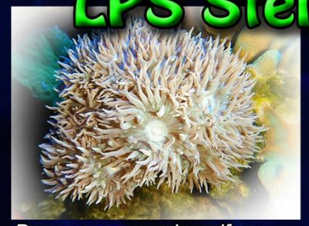
Porites spp.

# Sonstige Korallen

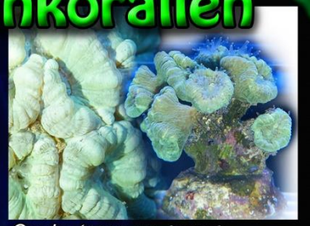
Heliopora coerulea

Millepora sp.

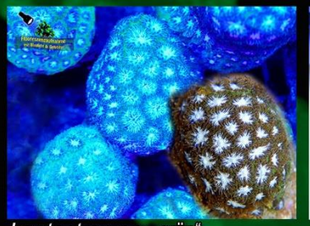
# LPS Steinkorallen



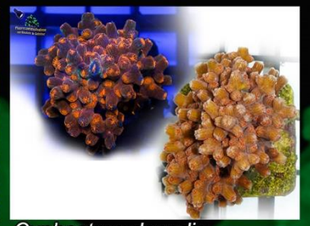
Duncanopsammia axifuga



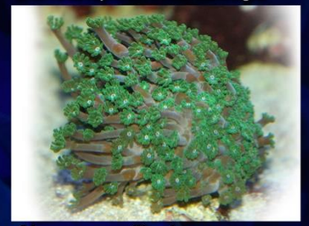
Caulastraea sp. `grün´



Leptastrea sp. „grün“



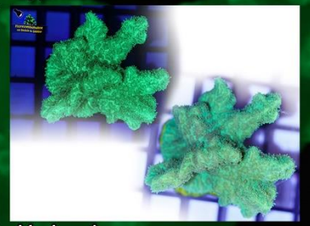
Cyphastrea decadia



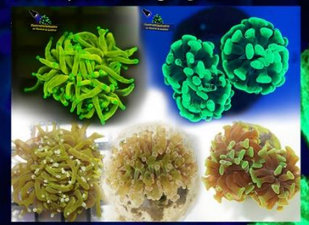
Alveopora allingi `grün´

Goniopora spp. `lila / rot / gelb´

Galaxea spp. `grün / mint´

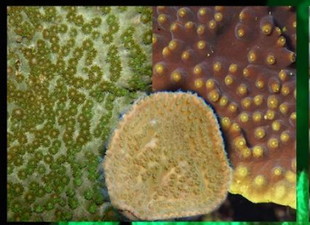


Hydnophora sp.



Euphyllia spp. / Fimbriaphyllia spp.

Lobophyllia spp.



Turbinaria spp.

Physogyra lichtensteini

Micromussa lordhowensis

Acanthastrea echinata

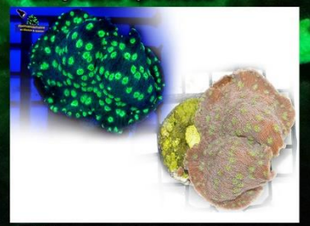
Pavona cactus P. decussata

Pachyseris speciosa

Favites spp. `grün-orange / braun-grün´

Oulophyllia sp. / Platygyra sp.

Echinophyllia spp.



Echinopora lamellosa
